GOVERNOR

How do you answer the child who asks: "Why isn't there enough room in our school for all the children?" or "Why don't we have a bathroom in our school?" . . . or "Why don't we have lights in our school room?"

That's a real stickler, isn't it? But when the voters of Alabama approve the School Amendments in the December 6 election, Alabama schools will have the money to correct this situ-

More than 700,000 Alabama school children will be counting on you when you vote. How you vote on Amendments 1 and 2 will decide what kind of schools they are oning to have.

WHAT ARE SCHOOL AMENDMENTS 1 AND 2? Amendment No. 1 calls for an income tax to raise \$29 million, all for schools. This tax must pay for the

increases the Legislature voted for our schools-1-to hire teachers for the "extra" 20,000 children in school this year. 2-to keep good teachers by making their pay

closer to that in nearby states.

3-to repair busses and buy new ones. 4-to help colleges and trade schools take care of their "extra" students. 5-to help schools do a better job in such things as agriculture classes, teaching handicapped

children and adults. 6-to pay back what we borrow on bonds to build new classrooms.

Amendment 2 permits the State to borrow \$110 million to build needed classrooms in every county. We all want better schools. The Legislature studied many plans for meeting the needs of our schools. They decided, almost to a man, that Amendments 1 and 2 offer us the best way to pay for better schools.

EVERYBODY HELPS - NOBODY PAYS A LOT! If Amendment I passes, 900,000 people will help pay for better schools. Nobody pays a lot. We all pay according to what we make — after business and farm expenses. These rates can't be increased. And ALL the \$29,000,000 is required by law to be spent ONLY on schools.

Amendment 2 permits the State to borrow \$110 million by selling bonds. We can start right away to build the classrooms our children need so much. The money to pay for the bonds will be provided by Amendment No 1 We can't build schools without No. 2. We can't pay for them without No. 1. JUST A FEW CENTS A DAY FOR BETTER SCHOOLS

If Your Income, You Will Pay After Expenses, Is 8 c 29.50 11c 40.00 15½c 56.50 18c 65.50 9,000 21c 75.00

The Legislature offered this plan - Amendments I and 2 - as the best of many they studied. They refused to increase the sales tax. They did not remove exemptions on seed, fertilizer, machinery, gasoline autos, newsprint, and many other items. Instead, the Legislature offered the School Amendments.

The schools belong to all of us; 900,000 of us can put our shoulders to the wheel. Nobody's load will be heavy.
All our school children — 700,000 of them — will have better schools . . . they can't vote. You can!

1955 Going on Record As One of Nation's Most Productive

One of the Nation's most productive crop season rapidly moved toward a finish during October with generally good narvest progress on Nov 1 reports, confiderably more cotton and rice and slightly more corn, sugar beets, dry beans and sweet potatoes are est im at ed than month ago. Estimates are slightly lower for soybeans, sorgnum grain, potatoes, to bacco and peanuts.

High yields per acre for most crops teature the season's outcome despite numerous instances of local or sectional reversees. Crop reporters' opinions of yields of "all crops" in percent of "normal" in their localities show where drought struck the hardest in the Great Plains central Corn Beit, and other areas and where hurricane storms battered some eastern coastal sections. These appraisals fall below last year only in West North Central States. Yields in southern states are far above last year despite severe e a rly s pring freeze damage to fruit and nut crops and some vegetables.

An even more striking production put together from latest crop estimates. The 1935 yield index covering all crops now reaches the all time high Carl processor record.
